

# Physician & Health Providers

DIRECTORY 2010

## **Welcome to GlobalHealth**

Our physicians and staff would like to take this opportunity to welcome you to GlobalHealth. With GlobalHealth, you get a wide range of services to meet your healthcare needs and a large network of Primary Care Physicians (PCPs) and specialists. You are covered 24 hours a day, every day of the year.

Before you see a doctor, you will need to choose a Primary Care Physician from the list of physicians in this Provider Directory. Feel free to choose any available Primary Care Physician from the list. You and each member of your family may choose the same Primary Care Physician, or you may have different Primary Care Physicians.

In order to maximize your benefits, it is very important that you familiarize yourself with the systems, policies and benefits outlined in this handbook. PLEASE READ YOUR PROVIDER DIRECTORY CAREFULLY. If you do not stay within our medical group's healthcare system, and are unfamiliar with your benefit coverage, you might incur unnecessary costs.

## **Choosing Your Primary Care Physician**

As a GlobalHealth member, you must use plan providers to get your covered services. This starts by choosing a Primary Care Physician using this Provider Directory or by calling Customer Service. Your relationship with your Primary Care Physician is an important one. That is why we strongly recommend that you choose a Primary Care Physician close to your home or work. Having your physician nearby makes receiving medical care and developing a trusting and open relationship easier.

Your PCP will now be responsible for all your routine healthcare and will coordinate the rest of the covered services you get as a plan member. When you select a Primary Care Physician, it is important to remember this limits you to the network of specialists who are affiliated with your Primary Care Physician's network. Certain primary care providers are affiliated with integrated delivery systems or other provider groups (such as independent practice associations or IPA's and physician-hospital organizations, etc.), and members who select these providers will generally be referred to specialists and hospitals within those systems or groups. However, if a system or group does not include a provider qualified to meet your medical needs, you may request to have services provided by non-system or non-group providers. Your request will require prior authorization.

Identify yourself as a GlobalHealth member and always show your I.D. card when obtaining medical treatment from your Primary Care Physician. To receive maximum service, make appointments only through the office phone numbers listed on your Member I.D. card.

## **Questions...Concerns... Suggestions?**

GlobalHealth's Customer Service Department is here to help. Call 405-280-5600 (local), 1-877-280-5600 (toll-free), or 1-800-522-8506 (TTY/TDD/Voice) Relay Service, 9:00 a.m. to 5:00 p.m., Monday through Friday. Customer Service can access a multilingual hotline to assist you, with 140 languages available. Just ask for an interpreter.

## **Physician Credentials: How Can I Check Them?**

How can I find out about a doctor's training? Information about a doctor's training and experience can usually be obtained from the doctor's office, a local medical society (if the doctor is a member), a local hospital (if the doctor is on staff). A few state licensing boards issue information about disciplinary actions, but getting it may be cumbersome. Several online organizations provide easy access to various amounts of information. The American Medical Association's (AMA) Physician Select offers limited information on the training and certification status of all of the more than 814,000 medical physicians currently licensed in the United States. For more information visit <http://webapps.ama-assn.org/doctorfinder/home.html>. It does not list disciplinary actions. Searches can be done only one state at a time. This service is free of charge.

The American Board of Medical Specialties (ABMS) Certified Doctor Verification Service can be used to check whether a doctor is certified by one of the 24 recognized specialty boards. For more information visit <https://www.abms.org/WC/login.aspx>. The searches yield no other information. All states can be searched simultaneously. This site is primarily useful for checking the certification status of a doctor whose location is unknown. Registration at the site is required, but this service is free of charge.

## **Find GlobalHealth's Provider Directory on the Web!**

Visit [www.globalhealth.cc](http://www.globalhealth.cc) to find a current GlobalHealth provider directory online. The directory is searchable by first and last name, specialty, city and zip code. You can also obtain general information about GlobalHealth and interesting health related topics.

## **Emergency/Urgent Care...When It's an Emergency**

Emergency care is a covered benefit. An emergency is based on your symptoms arising from any injury, illness, or condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a reasonable and prudent layperson could expect the absence of medical attention to result in (1) serious jeopardy to the patient's health (or in the case of a pregnant woman, serious jeopardy to the health of the fetus); (2) serious impairment to bodily function; or (3) serious dysfunction of any bodily organ or part.

If you or someone in your family needs emergency care:

1. Go to the nearest hospital emergency room or call 911.
2. Identify yourself as a GlobalHealth member by showing your I.D. card.
3. Call your Primary Care Physician's office within 48 hours. Let your doctor know you have been treated in an emergency room. Remember, the condition must be an emergency.
4. If you are admitted to the hospital, your Primary Care Physician may arrange to transfer you to a contracting hospital.
5. If you need preventive, routine or follow-up care after being treated in an emergency room, the care must be provided by your Primary Care Physician or arranged by your PCP and prior authorized by GlobalHealth.

## **When You Need Urgent Care**

### **Urgent Care**

Urgent care is defined as medically necessary and immediately required as a result of an unforeseen illness, injury, or condition.

### **In-Area**

Urgent care is a covered benefit, subject to scheduled copayments. However, use of the emergency room for urgent care services that are not pre-authorized by your Primary Care Physician will not be covered.

1. If you need urgent medical care, call your Primary Care Physician's office and inform them that you are a GlobalHealth member.
2. Inform your Primary Care Physician or office personnel that you have an urgent medical problem and need assistance, and describe your condition or symptoms.
3. During office hours, your call will be given to your Primary Care Physician or a medical staff person who will give you instructions.
4. After office hours, your Primary Care Physician's answering service will take your name and phone number. Your Primary Care Physician or an on-call physician will call you back. You will be given medical direction at that time, which may include directing you to an urgent care facility.
5. After your PCP's office hours or on the weekend, you may self-refer to an in-network urgent care facility. For a list of in-network urgent care facilities nearest you, please refer to the GlobalHealth Physician & Health Providers Directory, also available on-line at [www.globalhealth.cc](http://www.globalhealth.cc).

Please note: Urgent care is not to be used in lieu of accessing your Primary Care Physician for routine services and continuity of care. Use of urgent care is only for an unforeseen illness, injury, or condition that requires immediate, medically necessary care.

*All follow-up care must be provided by your Primary Care Physician or arranged by your PCP and prior authorized by GlobalHealth.*

### **Out-of-Area**

Urgent care is a covered benefit, subject to scheduled copayments. However, use of the emergency room for urgent care services that are not pre-authorized by your Primary Care Physician will not be covered. If you are traveling and require urgent care that cannot be delayed until you return to the GlobalHealth service area:

- Contact your Primary Care Physician for medical advice and direction, and/or
- Self-refer to an urgent care facility.

Please note: Use of urgent care is only for an unforeseen illness, injury, or condition that requires immediate, medically necessary care.

*All follow-up care must be provided by your Primary Care Physician or arranged by your PCP and prior authorized by GlobalHealth.*

## **Hospitals and Specialists**

Your Primary Care Physician (PCP) will coordinate all of your medical care to see that you get the care you need when you need it, whether the care is delivered in the doctor's office, or in another facility. If your PCP feels you need to see a specialist, he/she will process a referral on your behalf.

When you select a Primary Care Physician it is important to remember this limits you to the network of specialists who are affiliated with your PCP's network.

- Your PCP will process a referral for you with GlobalHealth. If you see a specialist without an authorized referral, you may be responsible for paying for the services.
- After your PCP processes a referral and obtains authorization, you will receive a written letter of authorization in the mail from GlobalHealth. You may then make an appointment with the specialist as directed in the letter.
- All procedures and follow-up care with the specialist will also require prior authorization.

As a GlobalHealth member you will be required to obtain all non-emergent care within the GlobalHealth network of participating providers. If you have questions regarding providers in the GlobalHealth network, you may contact Customer Service at 1-877-280-5600 or 1-800-522-8506 (TTY/TDD/Voice Relay Service) 9:00 a.m. to 5:00 p.m., Monday through Friday.

Your Primary Care Physician must pre-authorize all inpatient and outpatient services at a contracting facility, except emergency and urgent care services.

## ***You May Self-Refer to the Following:***

### ***In-Network Well Woman Care Specialists***

You may self-refer to GlobalHealth's contracted obstetrical and gynecological (OB/GYN) specialists within your service area for your routine well woman exam. This will include an annual routine Pap smear, pelvic exam and breast exam. GlobalHealth will only cover the costs for your care when provided by your Primary Care Physician or an in-network well woman care specialist. You may be responsible for the cost of your care if you obtain services from a provider that is not in GlobalHealth's network of participating providers.

### ***Mammograms***

You may also self-refer to an in-network imaging center for your covered routine mammogram. Your Schedule of Benefits will tell you at what age and how often your mammogram is covered. See the listing in this Directory for in-network facilities you may access for this service. You may be responsible for the cost of your mammogram if you obtain services from a provider that is not in GlobalHealth's network of participating providers.

### ***Outpatient Mental Health Providers***

Members may access mental health services directly by calling Mental Health Network (MHNet) at 1-866-904-5234 (toll-free).

MHNet will work closely with Participating Providers to assure you and/or your family members receive timely and appropriate services. MHNet will arrange all inpatient and outpatient mental health and substance abuse services. You do not need to go through your Primary Care Physician.

Additional services available through MHNet, Inc. include:

- Crisis intervention
- Referrals to community resources and self-help groups
- Assistance in arranging appointments

There are important things to remember about MHNet:

- You must call MHNet at 1-866-904-5234 to receive a referral for any inpatient or outpatient

behavioral health services. MHNet staff is available 24 hours a day, 7 days a week to assist you.

- If you are currently receiving mental health or substance abuse care, please call MHNet as soon as possible. The staff will assist you in accessing a MHNet Provider.
- Treatment must be coordinated through MHNet. Should you seek behavioral health services without contacting MHNet and without prior authorization, GlobalHealth will not cover those services.

Prior authorization for treatment of a life-threatening emergency is not required. Call 911 if you need emergency treatment. Contact MHNet or have the provider of the emergency care contact MHNet as soon as reasonably possible.

## **GlobalHealth Network Hospitals**
